

# **MOTIVE POWER AND EQUIPMENT Compliance Manual**

## **TABLE OF CONTENTS**

### **Chapter 1 - General Information**

Introduction .....	1 - 1
Program Goals .....	1 - 2
Basis for Regulation and Inspection .....	1 - 3
Definitions and Roles	
Specialist .....	1 - 3
Motive Power & Equipment Inspector .....	1 - 3
State Equipment Inspector .....	1 - 3
Customers .....	1 - 4
Credentials .....	1 - 4
Personal Safety .....	1 - 4
Recommended Safe Work Procedures .....	1 - 4
Technical Bulletins .....	1 - 5
Contacts With News Media .....	1 - 5
Cooperation of FRA Personnel With Industry, Labor, & Other Agencies .....	1 - 6
Subpoenas .....	1 - 6
Operating Equipment .....	1 - 6
Delaying Trains .....	1 - 6
Unusual Occurrences	
Signing Release of Liability .....	1 - 7
Refusal To Permit Inspection or Investigation .....	1 - 7
Strikes and Labor Disputes .....	1 - 7
National Transportation Safety Board .....	1 - 7

### **Chapter 2 - Inspection and Compliance Program - *Revised 3/06***

Allocation of Resources .....	2 - 1
Regular Inspection Point .....	2 - 1
Inspection / Activities Priorities .....	2 - 1
Accident Investigations .....	2 - 2
Congressional Complaints .....	2 - 2
Complaint Investigation Report Format ( <i>Revised</i> ) .....	2 - 3
Waiver Petition Investigation .....	2 - 5
One-Time Movements ( <i>Revised</i> ) .....	2 - 6
Focused Enforcement ( <i>Revised</i> ) .....	2 - 9
Complaint Investigation .....	2 - 11
Sample Car/Locomotive Inspection .....	2 - 12
MP&E Safety Concern & Recommendation Report F6180.4A ( <i>Revised</i> ) .....	2 - 16
Operation Life Saver Presentation .....	2-17
Regular Inspections ( <i>Revised</i> ) .....	2-12

## Chapter 3- Enforcement Actions

General .....	3 - 1
Verbal Repair Order .....	3 - 1
Exception .....	3 - 1
Violation .....	3 - 1
Special Notice for Repairs .....	3 - 1
Individual Liability .....	3 - 1
Determining When and What Enforcement Action Is Necessary .....	3 - 2
The Inherent Seriousness of the Condition or Action .....	3 - 3
The Kind and Degree of Potential Safety Hazard the Condition or Action Poses in Light of the Immediate Factual Situation .....	3 - 3
Any Actual Harm to Persons or Property Already Caused by the Condition or Action .....	3 - 3
The Offending Party's General Level of Current Compliance as Revealed by the Inspection as a Whole .....	3 - 4
The Party's Recent History of Compliance with the Relevant Set of Regulations, Especially at the Specific Location or Division of the Railroad Involved .....	3 - 4
Which Enforcement Remedy is Most Appropriate Under the Circumstances Such Other Factors as the Immediate Circumstances Make Relevant .....	3 - 5
Enforcement Actions Against Individuals	
General Principles .....	3 - 7
Decision to Issue a Regional Level Warning .....	3 - 7
Decision to Recommend a Formal Warning Letter or Assessment of a Civil Penalty .....	3 - 8
Preparation of Civil Penalty or Action Against Individuals .....	3 - 9
Privacy Act Restrictions .....	3 - 10
Actions Against Railroads .....	3- 12

## Chapter 4 - Railroad Freight Car Safety Standards - Part 215

Introduction .....	4 - 1
Freight Car Safety Standards Inspection Procedures .....	4 - 3
PART 215 - Railroad Freight Car Safety Standards .....	4 - 3
Subpart A-General	
§215.3 Application .....	4 - 3
§ 215.5 Definitions .....	4 - 4
§ 215.9 Movement of defective cars for repair .....	4 - 6
§ 215.11 Designated inspectors .....	4 - 8
§ 215.13 Pre-departure inspection. ....	4 - 8
Subpart B --- Freight Car Components	
Suspension System	
§ 215.103 Defective wheel .....	4 - 10
§ 215.105 Defective axle and journal .....	4 - 13
§ 215.107 Defective plain bearing box: General .....	4 - 13
§ 215.109 Defective plain bearing box: Journal lubricating system .....	4 - 13
§ 215.111 Defective Plain Bearing .....	4 - 14
§ 215.113 Defective Plain Bearing Wedge .....	4 - 14
§ 215.115 Defective Roller Bearing .....	4 - 14
§ 215.117 Defective Roller Bearing Adapter .....	4 - 16

§ 215.119	Defective Freight Car Truck .....	4 - 18
Car Bodies		
§ 215.121	Defective Car Body .....	4 - 20
Draft System		
§ 215.123	Defective Couplers .....	4 - 22
§ 215.125	Defective Uncoupling Device .....	4 - 24
§ 215.127	Defective Draft Arrangement .....	4 - 24
§ 215.129	Defective cushioning device .....	4 - 26
Subpart C- Restricted Equipment		
§ 215.203	Restricted cars .....	4 - 27
Subpart D-Stenciling		
§ 215.301	General .....	4 - 27
§ 215.305	Stenciling of restricted cars .....	4 - 28
§ 215.305	Stenciling of maintenance-of-way equipment .....	4 - 28
Appendix D to Part 215 - Predeparture Inspection Procedure .....		4 - 29

**Chapter 5 - Blue Signal Protection of Workmen - Part 218 - Revised 3/06**

Introduction .....		5 - 1
§ 218.1	Purpose. ....	5 - 2
§ 218.3	Application. ....	5 - 2
§ 218.5	Definitions <i>(Revised)</i> . ....	5 - 2
§ 218.21	Scope. <i>(Revised)</i> .....	5 - 8
§ 218.22	Utility Employee .....	5 - 10
§ 218.23	Blue signal display .....	5 - 13
§ 218.24	One-Person Crew .....	5 - 14
§ 218.25	Workers on a main track .....	5 - 14
§ 218.27	Workmen on track other than main track. ....	5 - 16
§ 218.29	Alternate methods of protection. ....	5 - 18
§ 218.30	Remotely controlled switches .....	5 - 22

**Chapter 6 - Rear End Marking Device--Passenger, Commuter and Freight Trains - Part 221 - Revised 3/06**

Introduction .....		6 - 1
§ 221.3	Application .....	6 - 1
§ 221.5	Definitions .....	6 - 2
§ 221.13	Marking device display .....	6 - 2
§ 221.15	Marking device inspection .....	6 - 3
§ 221.16	Inspection procedure .....	6 - 4
§ 221.17	Movement of defective equipment .....	6 - 5
APPENDIX B TO PART 221-- APPROVED REAR END MARKING DEVICES		6 - 6

**Chapter 7 - Safety Glazing Standards - Locomotives, Passenger Cars & Cabooses - Part 223**

Guidance .....		7 - 1
----------------	--	-------

## Chapter 8 - Railroad Locomotive Safety Standards - Part 229 - Revised 3/06

Introduction .....	8 - 1
Locomotive Safety Standards Inspection Procedures .....	8 - 2
Subpart A - General	
§ 229.1 Scope .....	8 - 3
§ 229.3 Applicability .....	8 - 3
§ 229.3 Information Collection .....	8 - 4
§ 229.5 Definitions .....	8 - 4
§ 229.7 Prohibited Acts .....	8 - 10
§ 229.9 Movement of non-complying locomotives .....	8 - 12
§ 229.11 Locomotive identification .....	8 - 16
§ 229.13 Control of locomotives .....	8 - 16
§ 229.14 Non-MU locomotive control cab locomotives .....	8 - 17
§ 229.17 Accident reports .....	8 - 17
§ 229.19 Prior waivers .....	8 - 17
Inspections and Tests	
§ 229.21 Daily Inspection .....	8 - 17
§ 229.23 Periodic inspection: General .....	8 - 22
§ 229.25 Tests: Every periodic inspection <i>(Revised)</i> .....	8 - 24
§ 229.27 Annual tests <i>(Revised)</i> .....	8 - 26
§ 229.29 Biennial tests .....	8 - 29
§ 229.31 Main reservoir tests .....	8 - 30
§ 229.33 Out-of-use credit .....	8 - 31
§ 229.41 Protection against personal injury .....	8 - 32
§ 229.43 Exhaust and battery gases .....	8 - 32
§ 229.45 General condition .....	8 - 32
Brake System	
§ 229.46 Brakes: General .....	8 - 33
§ 229.47 Emergency brake valve .....	8 - 34
§ 229.49 Main reservoir system <i>(Revised)</i> .....	8 - 35
§ 229.51 Aluminum main reservoirs .....	8 - 36
§ 229.53 Brake gauges .....	8 - 36
§ 229.55 Piston travel .....	8 - 37
§ 229.57 Foundation brake gear .....	8 - 38
§ 229.59 Leakage .....	8 - 38
Draft System	
§ 229.61 Draft system .....	8 - 39
Suspension System	
§ 229.63 Lateral Motion .....	8 - 40
§ 229.64 Plain bearings .....	8 - 40
§ 229.65 Spring rigging .....	8 - 40
§ 229.67 Trucks .....	8 - 41
§ 229.69 Side bearings .....	8 - 41
§ 229.73 Wheel sets .....	8 - 42
§ 229.75 Wheel and tire defects .....	8 - 43
Electrical System	
§ 229.77 Current collectors .....	8 - 44
§ 229.79 Third rail shoes .....	8 - 45
§ 229.85 Doors and cover plates marked "Danger" .....	8 - 45
§ 229.89 Jumper; cable connections .....	8 - 45
§ 229.91 Motors and generators .....	8 - 46

Internal Combustion Equipment	
§ 229.93 Safety cut-off device	8 - 46
§ 229.95 Venting	8 - 47
§ 229.97 Grounding fuel tanks	8 - 47
§ 229.99 Safety Hangers	8 - 47
§ 229.101 Engines	8 - 47
Steam Generators	
§ 229.103 - 113 Steam Generator	8 - 48
Cabs and Cab Equipment	
§ 229.115 Slip/slide alarms <i>(Revised)</i>	8 - 49
§ 229.117 Speed indicators	8 - 50
§ 229.119 Cabs, floors, and passageways	8 - 51
§ 229.121 Locomotive cab noise	8 - 54
§ 229.123 Pilots, snowplows, end plates	8 - 55
§ 229.125 Headlights and auxiliary lights	8 - 55
§ 229.127 Cab lights	8 - 60
§ 229.129 Audible warning device	8 - 61
§ 229.131 Sanders	8 - 61
§ 229.133 Interim Locomotive Conspicuity Measures	8 - 62
§ 229.135 Event Recorders <i>(Revised)</i>	8 - 63
§ 229.137 Sanitation, general requirements	8 - 67
§ 229.139 Sanitation, servicing requirements <i>(Revised)</i>	8 - 70
Design Requirements	
229.141 Body structure, MU locomotives	8 - 74

## CHAPTER 9 - STEAM LOCOMOTIVES - PART 230

Introduction	9 - 1
--------------	-------

## Chapter 10 - Railroad Safety Appliance Standards - Part 231 - *Revised 3/06*

Introduction	10 - 1
Errors in US DOT Safety Appliance Booklet	10 - 4
Judgement in the Enforcement of the Safety Appliance Standards	10 - 4
<u>Locomotive Applications and Guidance</u>	
Locomotives Used in Switching Service - Location End Handholds	10 - 6
Securement of Handrail to the Locomotive Carbody North American Cab Structure	10 - 7
Burro Crane Requirements	10 - 7
Self Propelled Vehicles Considered to Be Locomotives	10 - 8
Steam Locomotives Used in Road Service § 231.15	10 - 9
Specifications Common to all Steam Locomotives § 231.15	10 - 9
Steam Locomotives Used in Switching Service § 231.16	10 - 9
Locomotives Used in Switching Service § 231.30	10 - 9
Road Locomotives with Corner Stairways § 231.29	10 - 10
<u>Freight &amp; Passenger Car Applications &amp; Guidance</u>	
Safety Appliance Fasteners	10 - 10
Adjustable Handhold/Ladder Tread	10 - 11
Dimensions Applicable to Handles of Uncoupling Levers	10 - 12
Definition of Left and Right / A and B end	10 - 12

Aluminum Safety Appliances .....	10 - 15
<u>Handbrakes</u>	
Handbrake Chains .....	10 - 16
Handbrakes - Articulated Cars .....	10 - 16
Multi-Unit Articulated Flat Cars- Crossover Platforms .....	10 - 17
Standard Level and Low Level Auto Rack Cars .....	10 - 18
<u>Flat Cars</u>	
DODX 4000 Series Flat Cars .....	10 - 18
Safety Appliance Arrangements on Flat Cars .....	10 - 19
Safety Appliance Arrangements on Flat Cars with Low-Mounted Side Hand Brakes <i>(New)</i> .....	10 - 20
<u>Covered Hopper Cars</u>	
Covered Hopper Cars - Running Board Extensions .....	10 - 21
Roof Hatch/Walkway Blockage .....	10 - 21
<u>Cars of Special Construction</u>	
Bulkhead Flat Cars .....	10 - 21
"Differential" 100-Ton Covered Hopper Cars Built by the Thrall Car Mfg Co. . .	10 - 22
Safety Appliance Interpretation of Coil Steel Cars .....	10 - 22
<u>Tank Car</u>	
Safety Chains on Tank Cars .....	10 - 24
Manufacture and Repair of Operating Platforms and Operating Platform Safety Railings On Tank Cars Without Underframes .....	10 - 25

**Chapter 11 - Brake System Safety Standards For Freight & Other Non-Passenger  
Trains & Equipment: End-of-Train Devices - Part 232 - *New 3/06***

Introduction .....	11 - 1
§ 232.3 Applicability .....	11 - 3
§ 232.5 Definitions .....	11 - 4
§ 232.9 Responsibility for Compliance .....	11 - 6
§ 232.11 Penalties .....	11 - 7
§ 232.15 Movement of Defective Equipment .....	11 - 7
§ 232.17 Special Approval Process .....	11 - 11
§ 232.103 General Requirements for All Train Brake Systems .....	11 - 11
§ 232.105 General Requirements for Locomotives .....	11 - 14
§ 232.107 Air Source Requirements .....	11 - 15
§ 232.109 Dynamic Brake Requirements .....	11 - 16
§ 232.111 Train Handling Information .....	11 - 17
§ 232.203 Training Requirements .....	11 - 18
§ 232.205 Class I Test Initial Terminal Inspection .....	11 - 19
§ 232.207 Class IA Brake Tests - 1,000 Mile Inspection .....	11 - 25
§ 232.209 Class II Brake Test - Intermediate Inspection .....	11 - 26
§ 232.211 Class III Brake Test - Trainline Continuity Inspection .....	11 - 27
§ 232.213 Extended Haul Trains .....	11 - 27
§ 232.215 Transfer Train Brake Tests .....	11 - 28
§ 232.217 Train Brake System Tests Conducted Using Yard Air .....	11 - 29
§ 232.219 Double Heading and Helper Service .....	11 - 29

Subpart D Periodic Maintenance and Testing Requirements .....	11 - 30
§ 232.305 Single Car Test .....	11 - 30
§ 232.309 Devices Used to Perform Single Car Tests .....	11 - 31
Subpart E End-of-Train Devices .....	11 - 32
End-of-Train Flow Chart .....	11 - 40
General Guidance for Appendix B to Part 232 (Part 232 Prior to May 31, 2001)	11 - 41
Train Brake Inspection .....	11 - 41
Interpretation of Initial Terminal Air Brake Tests at Remote Locations .....	11 - 42
Clarification for Initial Terminal Road Train Air Brake Tests .....	11 - 43
Enforcement Guidance for Inspecting & Testing Brakes on Cars on Shop or Repair Tracks .....	11 - 43
1000 Mile Interpretation - 49 CFR 232.12(b) .....	11 - 45
Hauling of Defective Cars at Intermediate Inspection Locations .....	11 - 45
§ 20303 .....	11 - 47
Bottom Rod Safety Support .....	11 - 48
Air Brake System - Reservoir Connecting Pipes .....	11 - 48
Testing of Handbrakes on Locomotives Equipped with an Air Release Valve ..	11 - 48
Air Flow Method as an Alternative to Leakage Tests for Trains .....	11 - 49
Locomotive Handbrakes - Stencil Requirements for Canadian Railroads .....	11 - 50
Locomotive Brake Cylinder Pressure .....	11 - 50
Brake Hoses on Cars Equipped with 15" End-of-Car Cushioning Units .....	11 - 51
Sloan Model 3050-A and 3200-A Angle Cocks .....	11 - 51

## **Chapter 12 - Passenger Equipment Safety Standards - Part 238 - *New 3/06***

§ 238.3 Introduction .....	12 - 1
§ 238.5 Applicability .....	12 - 2
§ 238.5 Definitions .....	12 - 2
§ 238.9 Responsibility for Compliance .....	12 - 3
§ 238.15 Movement of Passenger Equipment with Power Brake Defects .....	12 - 5
§ 238.17 Movement of Pass. Equipment with Other Than Power Brake Defects ..	12 - 5
§ 238.109 Training Qualification, and Designation .....	12 - 5
§ 238.119 Rim-Stamped Straight Plate Wheels .....	12 - 6
§ 238.303 Exterior Calendar Day Mechanical Inspection of Pass. Equip .....	12 - 7
§ 238.305 Interior Calendar Day Mechanical Inspection of cars .....	12 - 7
§ 238.307 Periodic Mechanical Inspections .....	12 - 8
§ 238.311 Single Car Test .....	12 - 8
§ 238.313 Class I Brake Test .....	12 - 9
§ 238.315 Class IA Brake Test .....	12 - 10
§ 238.317 Class II Brake Test .....	12 - 11
§ 238.503 Inspection, Testing and Maintenance Requirements .....	12 - 12

## **Chapter 13 - Passenger Train Emergency Preparedness - Part 239**

Guidance to be developed and published in the near future.

## Chapter 14 - Reflectorization of Rail Freight Rolling Stock - Part 224 - *New 3/06*

Introduction .....	14 - 1
Guidance .....	14 - 1

### Appendix A - Instructions for Completing MP&E Violation Reports

Introduction - MP&E Violation Reports .....	A - 1
The RISPC Program, F6180.96 and F6180.67 Forms .....	A - 1
Submission of Photographs as Evidence .....	A - 2
Statements of Witness or Reports of Interview .....	A - 2
Copies of Railroad's Records .....	A - 2
Locomotives F6180.10 .....	A - 3
Arrangement of the FRA F6180.10 Violation Report Package .....	A - 5
Freight Cars F6180.69 .....	A - 6
Freight Cars F6180.68 .....	A - 9
Arrangement of the FRA F6180.68 & 69 Violation Report Package .....	A - 10
Safety Appliances (Locomotives & Freight Cars) F6180.29 .....	A - 12
Power Brakes and Air Brake Tests F6180.29a .....	A - 15
Arrangement of the FRA F6180.29 & 29a Violation Report Package .....	A - 18
Instructions for Completing a Violation Report Package for Violations of Federal Railroad Safety Regulations .....	A - 19
Instructions for Completion of Form FRA F6180.67 .....	A - 19
Arrangement of the FRA F6180.67 Violation Report Package .....	A - 22

### Appendix B - Waivers - MP&E Related

Electronic Locomotive Brakes	
EPIC Locomotive Brakes 2002-13397 .....	B - 1
CCB Locomotive Brakes 2000-7367 .....	B - 2
CSX Transportation - CCB Test Waiver 1999-6252 .....	B - 4
Amtrak Electronic Brakes for HHP8 Electric Locomotives 2001-10596 ...	B - 5
Locomotive Brakes	
Canadian Pacific Railway - 26-L Brake 1104 to 48 Months 1999-5894 ....	B - 7
Canadian National Railroad - 26-L Brake 1104 to 48 Months LI-96-2 ....	B - 8
Locomotive Record-Keeping	
Electronic Daily Inspection - BNSF Railway Company .....	B - 10
Electronic Daily Inspection - Union Pacific Railroad .....	B - 11
Blue Signal	
BNSF - Two-Way EOT - Removal & Replacement of batteries by Train and Yard Crew Members and Utility Employees 2001-10660 .....	B - 12
Two-Way End-of-Train Device	
TrainLink II - ATX EOT Telemetry With Power Supplied by An Air Generator 2001-9270 .....	B - 13
American Short Line Regional Railroad Association - Restrictions on Heavy Grade Operation Without Two-Way EOT PB-97-12 .....	B - 15
Passenger Equipment Standards	
Passenger Brakes .....	B - 17

Highway Rail Vehicles Such As RoadRailers®, RailRunner®, Etc...	
BNSF Railway Company 1999-5895 .....	B - 18
CN/IC Railroad 2000-8089 .....	B - 23
CSX Transportation .....	B - 25
NS Corporation 2002-11896 .....	B - 28
Texas Mexican Railway 2000-7040 .....	B - 34

## Appendix C - Safety Appliance Plates - Locomotives

### Illustrative Locomotive Plates

Plate "S-1" Steam Locomotives used in Switching Service .....	C - 1
Plate "S-2" Tenders of Steam Locomotives used in Switching Service .....	C - 1
Plate "S-3" Steam Locomotives used in Road Service .....	C - 2
Plate "S-4" Tenders of Steam Locomotives used in Road Service .....	C - 2
Plate "S-5" Tenders of Vanderbilt Type .....	C - 3

## Appendix D - Safety Appliance Plates - Freight Cars - *New 3/06*

### Illustrative Freight Car Plates

Plate A - Handbrake .....	D - 1
Plate B - Couplers .....	D - 2
Plate C - Box & Other House Cars .....	D - 3
Plate D - Box & Other House Cars with platform end sills .....	D - 4
Plate E - Hopper Cars & High Side Gondolas with fixed ends .....	D - 5
Plate F - Hopper Cars & High-Side Gondolas with fixed ends .....	D - 6
Plate G - Drop-End High-Side Gondola Cars .....	D - 7
Plate H - Drop-End High-Side Gondola Cars with platform end sills .....	D - 8
Plate I - Fixed-End Low-Side Gondola & Low-Side Hopper Cars .....	D - 9
Plate J - Fixed-End Low-Side Gondola & Low-Side Hopper Cars with end sills ..	D - 10
Plate K - Drop End Low-Side Gondola Cars .....	D - 11
Plate L - Drop-End Low-Side Gondola Cars with platform end sills .....	D - 12
Plate M - Flat Cars .....	D - 13
Plate N - Tank-Cars with Side Platforms .....	D - 14
Plate O - Tank Cars without side sills & Tank Cars short side sills & end platforms	D - 15
Plate P - Tank Cars without End-Sills .....	D - 16
Plate Q - Caboose Cars with Platforms .....	D - 17
Plate R - Caboose Cars without Platforms .....	D - 18
Plate S - Tank Cars without Underframes .....	D - 19
Plate T - Box & Other House Cars with Roofs $\geq$ 10 inches above top of rail .....	D - 20
Plate U - Box & Other House Cars without Roof Hatches .....	D - 21
Plate V - Box & Other House Cars with Roof Hatches .....	D - 22

## Appendix E - Statistically Driven Inspection Guidance for Motive Power & equipment Inspectors and Safety Specialists - *(New)*

“Drill-down” Procedures.....	E - 5
“DIG” Process flow chart.....	E - 6
Interpretation of Nationwide Accident/Incident Trends.....	E - 8
Typical Railroad-Specific Trend Report.....	E - 10
Typical “Bad Actor” Chart.....	E - 17
