

Don A. Sepulveda, P.E.
Biography

Don Sepulveda is the Executive Officer - Regional Rail for the Los Angeles County Metropolitan Transportation Authority where he leads the team responsible for high speed rail in Los Angeles County. Don also manages all Metro-owned commuter rail right-of-way, Metro's involvement with Metrolink, and associated goods movement.

Prior to joining Metro, Don has worked in the private sector as a project manager for railroad infrastructure projects throughout southern California and other parts of the United States. Throughout his career he has been involved in commuter rail design and studies, positive train control, and heavy freight rail design. Don has been working on the high speed train system in California, in one capacity or another, since 1995. In addition to his work in railroad infrastructure, Don has led numerous railroad safety projects, including the development of grade crossing and corridor safety standards as well as co-chairing the Metrolink Safety Peer Review Panel formed after the Chatsworth accident. Mr. Sepulveda received his B.S. in engineering from California State University, Northridge.

Don is a Fellow in the American Society of Civil Engineers (ASCE) and has been active in this organization at the local and national level. In addition to his ASCE work, Don is a member of the American Railway Engineering and Maintenance-of-Way Association where he serves on the high speed rail and commuter and intercity rail technical committees. He has had papers published for both WTS and the American Railway Engineering and Maintenance-of-Way Association.

Don is married and has five daughters.
